Sudoku

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Home Aweigh Acres, area groups hold charity event

By David Nordby
The Brillion News

BRILLION – Area organizations came together to display the “big heart, small city” motto that’s in Brillion for an event to benefit vulnerable children at the end of February.

Home Aweigh Acres, Inc. (HAAI), which serves Calumet, Manitowoc, Sheboygan and Outagamie counties, hosted the event. The event produced more than 70 fleece tie-blankets for the patients at the Ronald McDonald House of Children’s Hospital of Wisconsin. The event marked the third time there has been a collaborate event since the two organizations came together last August.
