**Dear Calumet County Residents,**

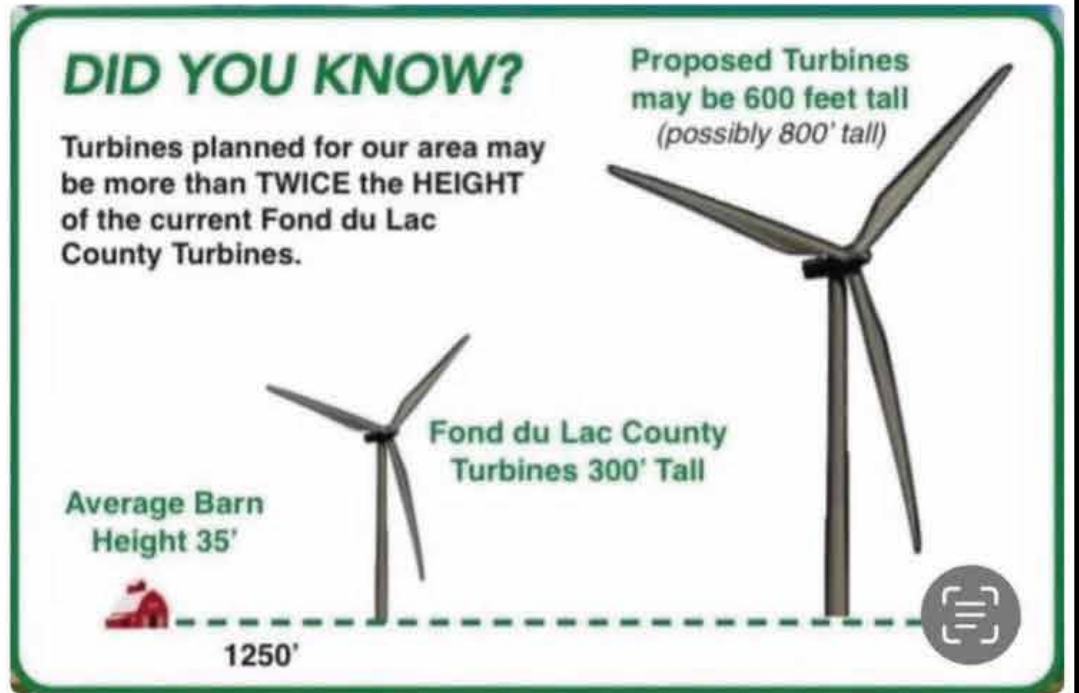

Currently, there is a wind turbine company who is trying to secure enough land to put up huge wind turbines throughout our county. The wind company is desperate to convince farmers and land owners in rural Wisconsin to allow wind turbines and solar panels on their land. These will be 600 feet tall, much taller than the existing turbines in Fond Du Lac County.

No mention is made of the health hazards to children living near a 600' tall wind turbine in rural Wisconsin. No mention is made of the quality of life lost by the industrialization of rural Wisconsin. No mention is made of the families in Brown County who had to abandon their homes because of the wind turbine noise. No mention is made of the millions of dollars in tax payers subsidies paid to the wind and solar companies and the utilities. No mention is made that the electricity produced doesn't necessarily stay in Wisconsin.

**Make no mistake, renewable energy is a business. They do not care about our county. They care about THEIR profits derived from government subsidies.**

Please, if you are contacted by the wind company, do not sign anything. These contracts are stacked against the landowner. Be informed, don't be taken advantage of, and don't sign away your land rights.

*Sincerely, Calumet County Citizens for Responsible Energy*

### Sudoku

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
