## Gasch named Michael S. Ariens Award recipient

By David Nordby  
The Brillion News

BRILLION – Gordie Gasch is this year’s Michael S. Ariens Community Leadership Award recipient.

“I’m totally surprised,” Gasch said. “This has really been a good community and it’s interesting that I got the opportunity to work with kids in my career and my volunteer stuff. It’s heartwarming the support of families and people I know.”

Gasch will formally accept the award at next Thursday’s Brillion Area Chamber of Commerce 8th Annual Best & Brightest Awards at Carstens Mill. Gasch joins Pe-

Gordie Gasch

ter Kittel (2018), Beth Wenzel (2019), Clarence Harms (2020), Zane Zander (2021), Carole Rajkovich (2022) and Mel Edinger (2023) as recipients of the leadership award.

Gasch, 74, grew up in Chilton and then attended the University of Wisconsin-Madison where he majored in dairy science and was a part of the UW dairy judging team, where he traveled around the country. After college, he farmed for eight years back in Calumet County, and it was during that time he became a part-time teacher for Brillion.

“I had done 4-H work a whole bunch before so when I started teaching, I knew a lot of the kids

and a bunch of the families here,” Gasch said.

Teaching became a natural path, even if it wasn’t planned with his farming career.

“It was really the FFA (Future Farmers of America) and giving kids the opportunity to do things above and beyond the classroom,” Gasch said.

Just days before classes started for the 1983-84 school year, then-superintendent Dick Walker showed up at Gasch’s home to recruit him to be a full-time teacher for the district.

“The superintendent and principal came and sat at my kitchen table, so kind of my home territory,” Gasch says ...

## Brillion closes schools for threat later deemed ‘not credible’

By David Nordby  
The Brillion News

BRILLION – The Brillion School District canceled classes last Wednesday because of a threat that was made online. The Brillion Police Department, within minutes of investigating, found the threat to be “not credible.”

Classes resumed as normal on Thursday.

Superintendent Corey

Baumgartner communicated the school closure with parents early Wednesday morning. The threat that was posted online made specific note of one of the district’s school buildings.

“Given the time of when the threat was received the decision to close our school buildings was made to keep the safety of our students and staff the main priority,” Baumgartner said.

The Brillion Police Depart-

ment received assistance from the Calumet County Sheriff’s Department.

“The police have already been able to determine the juvenile individual responsible and that the threat itself was not credible through their investigation,” Baumgartner said.

“Please know that the district will be advocating that the individual responsible be held accountable for their actions to the

fullest extent,” he added.

The school had received an alleged threat that was reported to the middle school on the previous Friday, Sept. 13. Baumgartner quickly notified parents the two incidents were not related.

“We know that in districts across our country that copycat threats often follow events such as this,” Baumgartner said.

By Friday, Baumgartner had sent out another update to par-

ents after a middle school student shared a concerning image from an individual’s Snapchat, which depicted a picture of another person’s Snapchat story that referenced a vague shooting threat but did not reference Brillion or any school at all. The Brillion Police Department quickly identified that the author of the original image that the Brillion student shared with faculty resides and attends school in California. ...

### Sudoku

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
